Professional Summary

- CSE student with hands-on experience in Python, Java, PHP, SQL, ML, and web technologies.
- Built and deployed projects with measurable outcomes: handled 100+ users, 5,000+ records, and automated reporting processes.
- Completed Data Science internship, developing predictive models and data analysis pipelines with 85%+ accuracy.

Education

Tulshiram Gaikwad Patil College

Sep 2023 – 2026

B.Tech in Computer Science Engineering, Nagpur, Maharashtra

SMDR Government Polytechnic

Jan 2020 – Jun 2023

Diploma in Computer Science Engineering – 69%, Dhule, Maharashtra

Maharashtra State Board

Jul 2020

SSC (10th) – 91.40%, Navapur, Maharashtra

Internships / Experience

AD Infocom Systems — Data Science Intern

Dec 17, 2024 – Dec 31, 2024

- Completed a 15-day Data Science internship, working on data preprocessing, analysis, and predictive modeling.
- Processed **1,000+ real-world records** for model training.
- Developed and tested ML models achieving **85%+ accuracy**.
- Automated reporting scripts, reducing manual effort by **40%**.

Projects

Blood Bank Management System

Technologies Used: VB.NET, MySQL

- Managed **100+ donor records**, tracking donations and inventory.
- Automated donor registration and blood group-wise stock management, reducing errors by **50%**.
- Generated reports, improving urgent request response by **40%**.
- Implemented search/filter enabling staff to locate info within **5 sec**.

House Price Prediction System

Technologies Used: Python, ML, HTML/CSS, Flask

- Built regression ML model with **5,000+ records**, achieving **88% accuracy**.
- Developed Flask-based web interface accessed by **30+ users**, reducing estimation errors by **35%**.
- Applied preprocessing, feature engineering, and validation for optimal performance.
- Visualized outputs with interactive graphs highlighting price trends.

Hostel Management System

Technologies Used: PHP, MySQL, HTML/CSS, Apache Server

- Role-based hostel system handling **100+ student records**.
- Secure login and role-based access for students, watchmen, and wardens.
- Modules for room allocation, complaint tracking, visitor logging; reduced admin workload by **30%**.
- Added automated notifications for complaints and room updates, improving communication.

Technical Skills

- **Languages:** Python, Java, C, HTML/CSS, JavaScript, SQL
- **Developer Tools:** VS Code, Eclipse, Android Studio
- **Technologies:** Git, GitHub, Linux, WordPress, Flask

Certifications

- **Mind Games & Cyber Defense: Social Engineering Bootcamp** — DevTown (2025)
- **Python for Everybody** — Coursera (2024)
- **Introduction to Machine Learning** — NPTEL (2023)
- **IoT Applications** — Udemy (2023)
